

## BOTANY SEMESTER II (2017-2019)

### STUDENT FEEDBACK

#### 221 201 Plant Systematics

### Specific Comments:

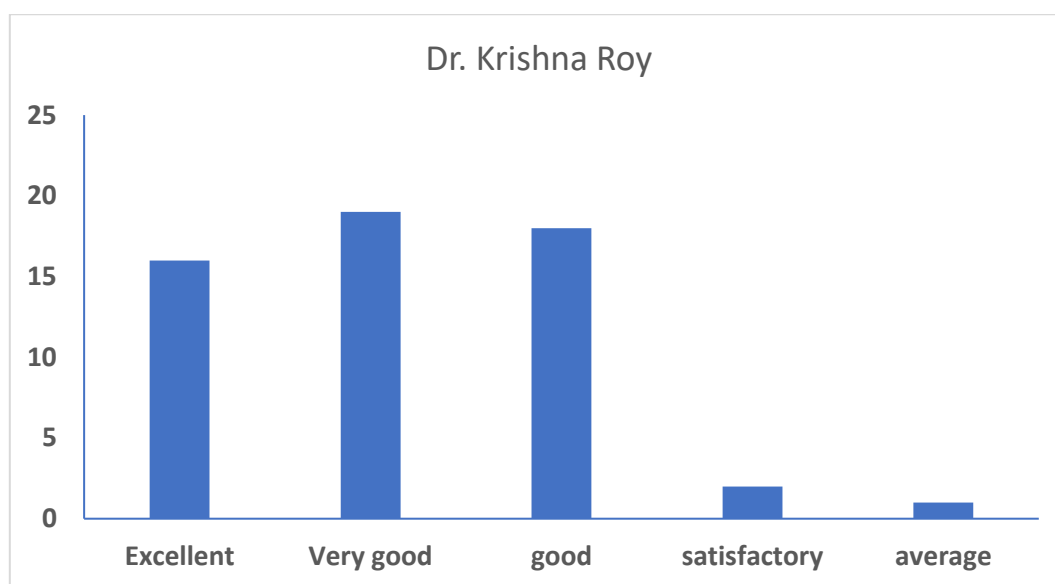

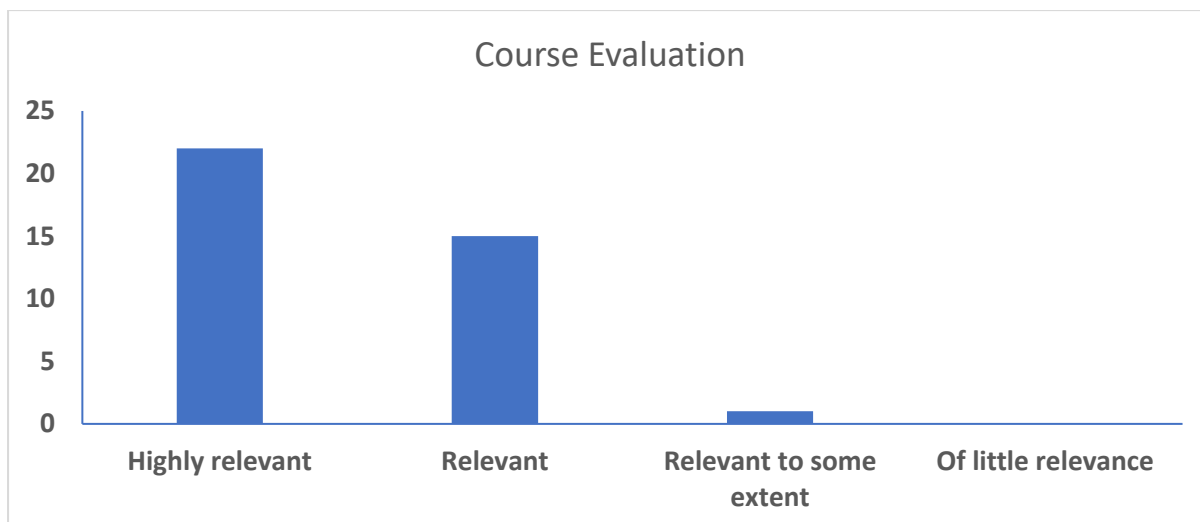

#### Plant Systematics

(Dr. Shovan Kr. Mukherjee)

- Laboratory and technical staffs are needed
- Permanent faculty is needed and good Laboratory
- Permanent faculty is needed and good Laboratory and technical staffs needed
- Increase no of classes
- Need a permanent specialized teacher
- Needed permanent faculty and time of course should be extended

- Permanent taxonomy teacher needed and permanent taxonomy lab needed and if the classes become frequent 2 days per week then students will be deeply benefitted.
- Permanent faculty and proper lab for taxonomy
- I have no any kind suggestion

## 221 202 Plant Ecology and Environmental Biology

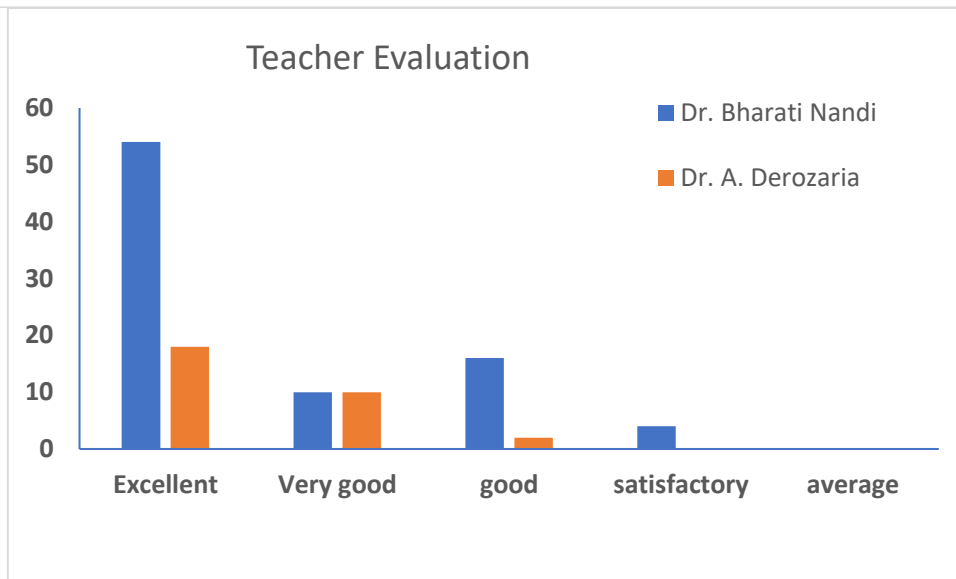

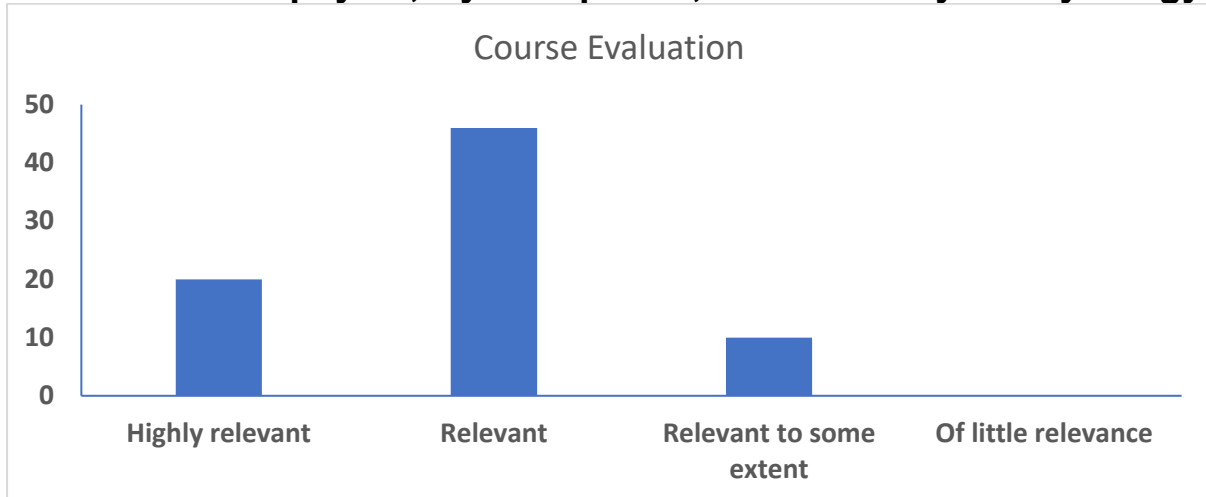

### Specific Comments:

Plant Ecology and Environmental Biology

(Dr. Krishna Roy)

- Teacher may be more friendly. She may give freedom to students to ask questions and she may solve this.
- Practical is very necessary
- Require board work to fulfill our query with good behavior
- Board work should be required

## 221 203 Pteridophytes, Gymnosperms, Palaeobotany & Palynology

### Specific Comments:

**Pteridophytes, Gymnosperms, Palaeobotany, Palynology (Dr. Bharti Nandi, Guest Faculty)**

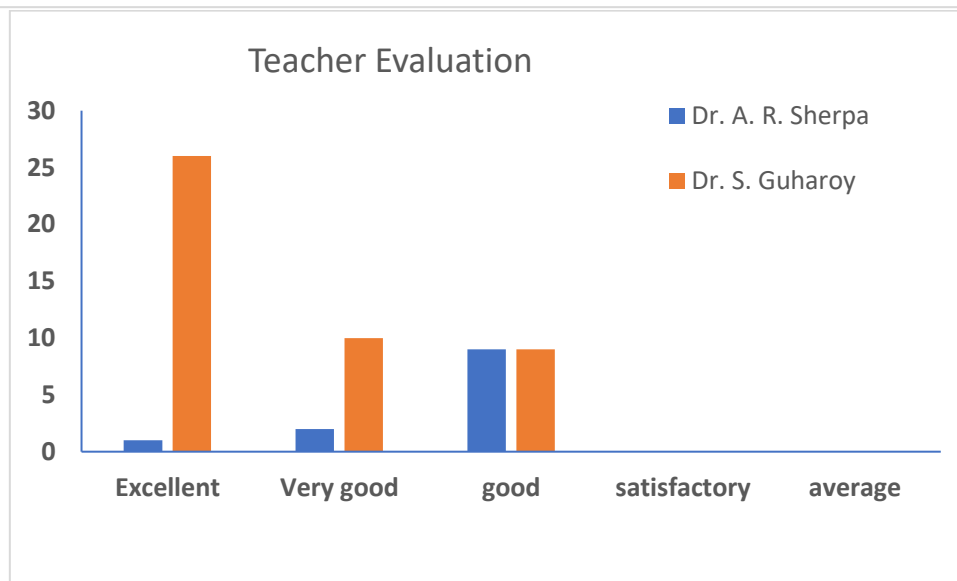

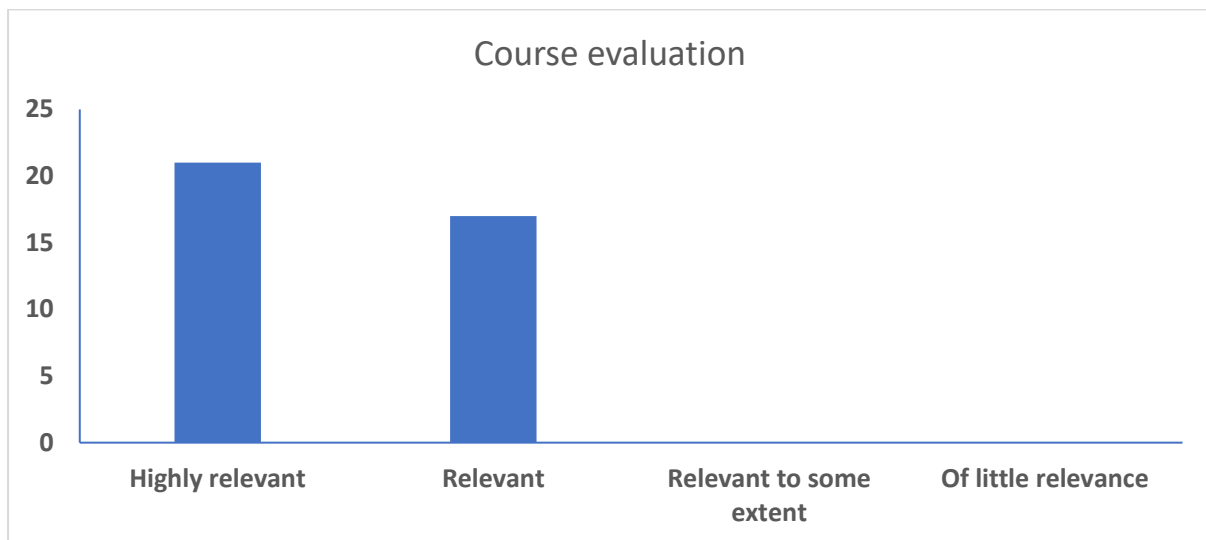

- Paleobotany slides needed. No permanent faculty
- Teacher may attract the student to understand
- I want mam to visit our university year after year and enrich us ith her valuable suggestions
- Require a laboratory to do practical class
- Needed more non-teaching staffs and it requires sophisticated lab for practical
- I don't have any suggestions

**Pteridophytes, Gymnosperms, Palaeobotany, Palynology (Dr. Ashalata D Rozaria, Guest Faculty)**

- No, I have no any kind of suggestion for improving the course or teaching methodology

- Permanent faculty needed
- Pteridophyte, Gymnosperm and Paleobotany and Palynology lab needed
- Paleobotany Museum needed
- Permanent faculty and good laboratory is needed
- Needed to practical laboratory and non-teaching staffs

## 221 204 Plant Pathology & Crop protection

### Specific Comments:

#### Plant Pathology and crop protection (Dr Ang Rinzing Sherpa)

- I don't have any suggestions

#### Plant Pathology and crop Protection (Dr Sanjoy Guha Roy)

- Please refer some good text books other than Agrios
- Needed some practical classes
- I have no any kind of suggestions

- I have no any kind of suggestion because sir is very interactive with us and always help us what we need. In my opinion he is the one of the best teacher
- Don't need any kind of suggestion because sir is very interactive with us and help when required
