

King Sejong Institute is the brand name of the Korean language institute established in 2007 by the South Korean government with the objective of spreading awareness of and interest in the Korean language and culture.

Barasat King Sejong Institute started its journey in 2019 through a collaboration with the Anyang University. Barasat KSI's principal focus is to introduce Indian learners to the Korean language and culture. It also intends to make sure that this knowledge and understanding of a new language and culture enhances their employability potentials and academic and professional growth in suitable areas.

President's Address

Professor Mahua Das, Hon'ble Vice-Chancellor, West Bengal State University.

It is my pleasure and privilege to represent Barasat King Sejong Institute hosted by the West Bengal State University. The institute has carved out a niche for itself in a short period of time in offering Korean language and culture lessons in an innovative manner maintaining high pedagogical standards. I am sure that the institute will scale greater and newer heights in the days to come benefitting scores of learners looking for academic and professional opportunities in the Korean language.

Director's Address

Dr. Somak Mandal, Assistant Professor, Dept. of English, WBSU

It is an honor for me to assume responsibilities as the second Director, after prof. Sipra Mukherjee, of Barasat King Sejong Institute. Over the last three years, despite Covid lockdowns, the institute has been able to cater to the needs of learners interested in learning a new language and culture. At present, we are conducting online courses due to Covid restrictions and hoping to resume physical classes from the next semester starting from July 2022.

Our institute can now boast of more than two hundred students logging in from across India. The popularity of our courses lies in the fact that our trained native Korean-speaking faculty employ innovative task-based and fun-filled activities in teaching the language, offering attractive gifts, often imported from South Korea, to the successful learners.

I, therefore, can confidently say that if you are interested in the Korean language and culture for whatever reasons may be, Barasat King Sejong Institute is your only destination.
